HAY AND CHRISTMAS

Secretary of State Tells How He Became Interested In Latier.

DENIALS OF DEPEW AND BACON.

The New York Senator Says That He Has Never Seen Christmas So Far as He Was Aware.

Washington, April 7.—Senator Dewey of New York appeared before the special house committee investigating charges in connection with the Danish West India negotiations. His statement was brief. He expressed astonishment at having seen his name in the Christmas report. He did not know Christmas and never had seen him, as far as he was aware, although he met thousands of people and could not say just who he had seen. But as to the Danish island question he had never had a discussion with any one on the subject.

S. W. Knox of Maryland said he had consented to aid Christmas. In response to questions from the committee Mr. Knox specifically denied that he had introduced Christmas to W. J. Bryan or that he had claimed to Christmas that he was an intimate friend of Senator Hanna.

Senator Bacon of Georgia told of two casual conversations with Christmas. As to the latter's statement that Mr. Bacon took interest in the purchase of the Danish islands, the senator declared it was absolutely untrue, as he did not believe in the acquisition of the islands and considered it unfortunate that the United States was in a position where it seemed necessary to take them.

Chairman Dalzell presented the following letter from Secretary Hay on the subject: "To Hon. J. Dalzell, chairman of the select committee. I have received your letter of the 31st of March and in reply beg leave to say:

"In the early part of December, 1899, Christmas called upon me at this department and informed me that through private and personal sources in Copenhagen he had become aware that there was a disposition among some of the leading members of the Danish government to regard favorably an overtire from the government of the United States looking to the acquisition of the Danish islands. He said that he had been a naval officer and spoke at some length in regard to the desirability of the island of St. John as a naval station for the United States. At my suggestion he conveyed what further technical information he had on this subject to Admiral Bradford of the navy department. Although he presented no credentials whatever and expressly declared he had no official character, I thought his story was of sufficient interest to be worth investigation. I told him I would send a confidential and trusted agent of this government to Copenhagen to ascertain unofficially the true state of affairs and mentioned to him the name of Henry T. White, first secretary of the embassy at London. Captain Christmas said he would like to be in Copenhagen when Mr. White arrived and bring him into communication with the members of the government whom he had mentioned. I gave him a note of introduction to Mr. White and they met in Copenhagen, where Captain Christmas had arranged for an interview between Mr. White and a member of the Danish government. Mr. Christmas was not present at this interview and his connection with the latter ceased entirely at that time. He afterward returned to Washington and I saw him once or twice, but told him that there was no need for service of any private person in any negotiation which might be taken up between the two governments in regard to the acquisition of the islands. I enclose a copy of a letter which I have received from the Danish minister, Mr. Brun, dated the 31st of March, 1902."

In a letter to Minister Brun of Denmark enclosed, Mr. Hay refers to the signing of the convention of cession and adds: "The government of the United States is in no manner under obligation to the good offices of private parties in reaching the agreement now happily brought about between the United States and Denmark, and cannot admit for its own part, or support in any such claim against Denmark for commission, compensation or remuneration of whatever nature which might be made by private parties for alleged services in connection with the cession of the islands in question to the United States."

A letter from Minister Brun stated that Captain Christmas had no authorization whatever to enter negotiations in the name of the Danish government, nor to make any promises in the name

of the government in connection therewith.

Mr. Brun also says he gave Captain Christmas no authority of introductions, but refused his requests in this connection.

Representatives Richardson said he thought Mr. Hay should come before the committee and should produce any letters he had in connection with Christmas going to Copenhagen.

POLICY OF STRIKERS.

To Be Outlined at Meeting of Mine Workers' Officials.

Indianapolis, April 7.—The National executive board of the United Mine Workers of America began a meeting in this city that promises to attract much attention from the industrial world, as it is the understanding that a policy to be pursued in the event of a general strike in the great anthracite coal fields of Pennsylvania is to be outlined.

There are 23 members of the board, representing an organization with a membership of over 300,000 men. They will not issue a strike order for the anthracite fields pending the result of the negotiations between the National Civic Federation and the mine owners.

There seems to be a feeling among the miners' officials that an amicable settlement may be reached before the expiration of the 30 day truce declared by them in order to give the Civic Federation time to bring about a joint conference. Besides preparing for a strike in Pennsylvania, it is understood that the board will give careful consideration to the West Virginia trouble.

Several Victims Die.

Tuscumbia, Ala., April 7.—Five of the men who were wounded during the fight with Will Reynolds, the negro whom the officers attempted to arrest near here and who was finally killed after a desperate struggle, have succumbed to their wounds and two others are not expected to survive. Sheriff Gassoway, P. A. Prout and Jesse Davis died during the night; Will Gassoway is barely alive and Payne, who was wounded cannot survive. Finney's wound proved to be slight. News reached here of the killing of a negro at Florence, Ala., who was taking the negro desperado's side. Excitement here is yet intense.

To Rival Monaco.

New York, April 7.—It is said to be the intention of the Irvington Casino company, incorporated with a capital stock of \$20,000, to develop a tract of 40 acres of land in Westchester county, near Covington on the Hudson, and to maintain a summer resort which will rival in its appointments that of Monaco. It is the purpose of the promoters, whose names are at present withheld, to build, first of all, a casino, where New Yorkers may find absolute rest from business cares.

Bill in Interest of Miners.

Des Moines, Ia., April 7.—The house with but one dissenting vote passed a bill requiring all mine operators in Iowa to employ shot examiners and fires at their own expense. It was this demand at the recent conference of miners and operators that almost precipitated a strike. The miners yielded at that time relying upon the legislature to accomplish their purpose.

To Lay Out a Camp.

Chattanooga, Tenn., April 7.—Major General John R. Brooke and General H. V. Boynton arrived in this city and in company with government engineers proceeded at once to Chickamauga park, where they spent the day looking over the ground for the construction of the encampment of troops that will arrive here from Cuba within the next three weeks.

Invited to Visit Chicago.

Chicago, April 7.—Mayor Carter Harrison forwarded to Paul Kruger at The Hague, through Montague White, special Boer envoy, an invitation to visit Chicago, in compliance with the unanimous wish expressed recently by the city council of Chicago.

Forfeited His Bond.

St. Louis, April 7.—Charles Kratz, one of the men indicted for bribery in connection with alleged corruption in the municipal assembly, and who was cited to appear in court for trial, failed to respond. His bondsmen were notified.

Debate Closed.

Washington, April 7.—Immediately after the reading of the journal, the house proceeded with the consideration of the China exclusion bill. General debate having closed, the bill was read for amendment under the five minute rule.

The remains of ex-United States Senator Fowler of Tennessee were buried at Lexington, Ky. James Carter was taken from jail at Amherst, Va., and lynched for seriously wounding a white man.

HEADED FOR SING SING

Date of Execution of Murderer Patrick Fixed by Recorder Goff.

LEGAL ACTION WILL PROLONG LIFE.

Before the Case Can Be Prepared For Review by Higher Courts Six Months or More Will Have Elapsed.

New York, April 7.—Albert T. Patrick, who was convicted on March 26 of the murder of William Marsh Rice, was sentenced by Recorder Goff to be put to death in the electric chair at Sing Sing prison on May 5.

Rice died in this city on Sept. 23, 1900. An appeal to be made to the court of appeals by Patrick's counsel will act as a stay of execution pending a decision by the higher court. The recorder in pronouncing sentence made no comment on the jury's verdict.

The sheriff started with Patrick for Sing Sing shortly after sentence was pronounced.

The woman to whom Patrick was recently married by contract was on the train.

The noted case will go to the court of appeals and the mere filing of a notice of appeal by the prisoner's counsel will act as a stay of execution. It will require many months' work to make up this "case for the court of appeals to pass upon." More than 1,000 typewritten pages of testimony were taken by the stenographers at the trial and this will be condensed as far as possible by agreement between the prisoner's counsel, the prosecuting attorney and the recorder. It is doubtful if the case will be in shape to be sent to the highest court in the state before the end of the summer.

The last session of the legislature passed a law requiring that cases of murder must be passed on by the court of appeals within six months. As this bill did not pass until after Patrick's conviction it is a question whether it is applicable in his case.

To Visit Berlin.

Berlin, April 7.—Official circles here confirm the report that the Shah of Persia will visit Berlin in May and will pay his respects to Emperor William. The shah is going to Contrexville, France, for his health, and inquired of the authorities at Berlin whether his visit would be acceptable to his majesty, who answered affirmatively. The shah will probably come to Berlin by way of St. Petersburg. So far as Germany is concerned the visit is devoid of political significance. The officials here repudiate the assertions in the British press that Germany is endeavoring to establish her influence in Persia between the British and Russian rivalries in that country.

Anaconda Smelters Idle.

Butte, Mont., April 7.—The Washoe smelters at Anaconda are practically at a standstill because of the strike of the hoisting engineers of the Amalgamated mines. Over 3,000 men are now idle in Anaconda by reason of the walkout of the engineers. As the last meeting of the strikers they decided to a man to go back to work at the old scale. The miners' union has taken steps towards effecting a settlement between the Amalgamated and the striking engineers.

Cuban Revenues.

Washington, April 7.—The committee on insular affairs of the war department gave out for publication a statement showing that the revenues of Cuba for the two months ending Feb. 28, 1902, were \$2,461,764, and for 1901, \$2,535,364. The export duty was abolished on April 1, 1901, and exclusive of export duties, these receipts show an increase over 1901 of \$162,381.

Michigan Elections.

Detroit, April 7.—The principal general interest in city and township elections held in Michigan was at Grand Rapids, where Mayor George B. Ferry, Democrat, sought re-election to a third term. Arthur R. Rood, who was nominated for the mayorality by the Republicans, died last Saturday from typhoid fever with which he was stricken on the day of his nomination.

Coming Home.

St. Petersburg, April 7.—Charles Magnane Tower, the United States ambassador to Russia, will start from this city for Lausanne, Switzerland. Later he will leave for the United States and expects to reach Washington early in May.

Earl of Kimberley Worse.

London, April 7.—The Earl of Kimberley, Liberal leader in the house of lords and former foreign secretary, who has been ill for some time past, suffered a serious relapse.

OCECIL RHODES' WILL.

Statement in Regard to Omission of W. T. Stead as Executor.

London, April 7.—The fact that W. T. Stead's name was not among the executors of Cecil Rhodes' will has given rise to some comment, for it was generally understood that he was closely associated with those designated to carry out Mr. Rhodes' aspirations. In order to dispel any misapprehensions, B. A. Hawksley, who was counsel for Mr. Rhodes, declares in an open letter that the removal of Mr. Stead's name was not in any way due to difference on the subject of the South African war, but are from other causes quite appreciated by Mr. Stead and did honor alike to both men. "In the far back days," writes Mr. Hawksley, "when Mr. Stead expounded the common interests of the English-speaking peoples, his acquaintance was sought by Mr. Rhodes; the acquaintance ripened into close intimacy and continued to the last. Mr. Rhodes recognized in Mr. Stead, who thought as he did and who had the marvelous gift of enabling him to clothe with literary charm the ideas they both held dear. As Mr. Rhodes frequently said to me and others, including Mr. Stead himself, the friendship of the two men was too strong to be broken by passing differences about the South African war."

Captured By Revolutionists.

Port-Au-Prince, Hayti, April 7.—A number of revolutionists, commanded by General Nicolas Baptiste, attacked and captured Jacmel, a town on the south coast of Hayti, on Saturday, occupied that town for 24 hours, released the persons who had been imprisoned there and then retired to the hills, taking them with all the arms and ammunition they could obtain. During the fighting which preceded the capture of Jacmel, two men were killed and a number were wounded. The Haytian cruiser Crete a Pierot has started for Jacmel with arms and ammunition for that place, and the minister of war, V. Guillaume, has also left for Jacmel with a detachment of troops. All is quiet here.

Satisfaction Expressed.

London, April 7.—The suggestion that the Prince of Wales attend the dedication of the new home of the New York chamber of commerce excites the liveliest surprise here, coupled with satisfaction at the indication of the good feeling on the part of leading members of America's industrial community. Undoubtedly it is hoped in political circles that the expected invitation will not be accepted. Inquiries have elicited the fact that in court and official circles it is recognized that there are certain obstacles in the way, but it is hoped that they may not prove insurmountable.

Railroad Wreck.

Spokane, Wash., April 7.—Great Northern passenger train No 4, eastbound, was wrecked at Winchester, 133 miles west of this city. Railway officials here refuse to make any statement except to report that no one was killed. The best advices obtainable are that a high wind threw a freight car on the main track. The passenger train struck it at full speed derailing the engine and seven cars. The fireman is reported badly injured and it is believed many passengers were hurt. A wrecking train carrying doctors left here for the wreck.

Important Decision.

Washington, April 7.—In the United States supreme court an opinion was delivered by Justice Brewer in the case of Pine and others against the city of New York and Contoller Bird S. Color, involving the right of the city to appropriate all the water of a stream along which the complainants resided. The case was decided against the city by the circuit court of appeals, but this opinion reversed that finding and remanded the case for further hearing with instruction to consider the question of damages.

A Crazy Policeman.

Charleston, S. C., April 7.—Michael Sage, a policeman, crazed by drink, ran down the principal shopping street of Charleston, firing at the crowds of people. A motorman was wounded in the leg, but no other persons were struck. Ten men had a desperate fight before they subdued the crazed officer.

Baseball President Suicides.

Kansas City, April 7.—James Whitfield, president of the Western baseball league, and for many years sporting editor of the Kansas City Star, committed suicide at his home here by shooting himself.

Safe Blown to Pieces.

Fowler, Colo., April 7.—The bank of Fowler was entered by burglars, but the amount they secured is not yet ascertained. The large bank safe was blown to pieces, nitroglycerin probably being used.

London, April 7.—Vice Admiral Sir Harry Holdsworth Rawson, formerly in command of the channel squadron, and Lady Rawson, and Sir Richard Musgrave will be among the passengers on the White Star line steamer Teutonic which is to sail from Liverpool April 9 for New York.

ELECTION DAY IN OHIO

Municipal and Township Officers Elected Throughout Buckeye State.

LIVELY CONTESTS IN SOME CITIES.

The Women Take an Active Part in the Selection of a Director of Schools in Cleveland. Other Points.

Columbus, O., April 7.—Municipal and township elections were held in Ohio. The weather was cold and raw and in some places rain fell.

In Columbus a large vote was polled. The redistricting of wards for council and the issuing of bonds for an electric light plant and sewer purposes were among the issues. The action of Mayor Hinkle (Dem) in advocating that patrons of the street railroad insist upon a universal transfer was an important factor.

Below will be found dispatches from other places in Ohio.

Cincinnati.—The only issue here is superior judge, for which W. H. Jackson, the Democratic incumbent and Howard Ferris, Republican are contestants.

Dayton.—The vote promises to be the largest ever polled at a local election. The mayoralty contest and that of water works trustee is especially spirited. Republicans are making a desperate effort to capture control of the city council.

Youngstown.—The indications point to a good-sized vote being polled, as there is a spirited fight on in the mayoralty contest.

Cleveland.—A cold rain caused a light vote to be cast in most of the precincts. A feature of the contest was the activity of the woman voters, more than 15,000 of whom registered. Aside from the interest manifested in the school directorship the main fight hinged on the election of councilmen. Mayor Johnson having made a strong fight against candidates not in sympathy with the three cent street car fare movement.

Zanesville.—Interest is centered chiefly in the city council, an effort having been made to secure the nominations of good men on both tickets. Voting is brisk.

Canton.—Interest centers in propositions to issue municipal bonds amounting to \$215,000. Six separate tickets. Some voters may be cut out for lack of time to accommodate them.

Toledo.—As Mayor Jones' term does not expire for one year, there is little general interest in choice of members of the city council and school board. The vote was light.

Toledo Boy Located.

Chicago, April 7.—Harry Kayser, the 7-year-old boy for whom the police of Toledo, Ohio, and Chicago have been searching for some time, was found in St. Vincent's orphan asylum here. Joseph Kayser, the boy's father, was divorced in Toledo and later remarried. He gave a bond of \$1,000 to pay \$13 a month for the support of the child. Several weeks ago he disappeared from Toledo, and the boy with him. The father was located here a week ago and arrested, but he refused to say what he had done with his son. Kayser is now in Toledo awaiting a hearing, and the boy will be sent back to his mother.

Conferees Agree.

Washington, April 7.—The conferees on the war revenue repeal bill reached an agreement, the senate receding from its amendment which retracted the tax on "bucket shops." It was stated that taken in consideration with the repealed sections of the law it was doubtful whether the senate provision would stand and also that it was quite likely that the provisions would permit members of stock exchanges engaging in the business which the amendment would prevent among so-called bucket shop dealers.

To Prevent Merger.

Washington, April 7.—Attorney General Straton of the state of Washington brought to the attention of the United States supreme court the desire of that state to bring suit to prevent the merger of the Northern Pacific and the Great Northern railroads by moving for leave to file a bill of complaint on behalf of the state vs. the Northern Pacific, the Great Northern Pacific companies and the Northern Securities company. An early response was

FOR men's clothing of good quality, large stocks, genteel fits, Maysville affords the purchaser advantages that cannot be surpassed in large cities.

NO CITY in this section has a larger, more general and finer variety of dry-goods to select from than Maysville. Ladies, you can suit yourselves in dry-goods as well as in up-to-date millinery in Maysville, at prices that will not be as high as you would have to pay in the larger cities.

THE exports of American farm products in 1901 amounted to \$952,000,000, the largest in history. The imports of similar products amounted to \$392,000,000, a decrease of \$28,000,000 since 1900. Without our foreign trade the farmers of the United States would have an immense surplus left on their hands.

ALL the commercial organizations in the State have been invited to aid in securing a proper display of Kentucky's advantages and resources at the St. Louis Fair. This is something in which all are interested and to which every patriotic citizen will be glad to lend his aid and encouragement. A dollar from 100,000 true Kentuckians will do the work.

COMMENTING ON Ex-Secretary Carlisle's alleged opinion that Governor Beckham is ineligible for re-election, the Cynthiana Democrat says:

Right or wrong, one fact is patent: Mr. Carlisle is not eligible for any office in Kentucky, or any place else where Democrats are in control. And yet, at one time, all of us loved him, and some went so far as to create the suspicion that they stole his election to Congress.

COUNTRY merchants will find in Maysville the best cigars for the money to be found anywhere. This city does an enormous cigar business and almost without exception our cigar manufacturers are men that understand that a good cigar sells and a mean one soon runs its manufacturer out of the business. Hence they are extending their trade territory over a large area.

RECENT events move the Cincinnati Enquirer to remark:

The time may come in this country when a soldier will have some of the every-day rights of citizenship. That a man fitted by education and force of character to command an army, for example, even in time of peace, is obliged to sit like a "bump on a log," when nearly everybody else is discussing some affair of public moment, appears to be radically wrong. Ours is supposed to be a citizen soldiery, but some of the regulations are made like those which govern the soldiery of a Czar.

Municipal and township officers were chosen throughout Ohio Monday. At Aberdeen the election passed off quietly, a light vote being polled. Below is the vote for town and township officers. Politics did not figure in the town election. The Democrats, as usual, were victorious in the township fight.

D. HUNT & SON

A LEXINGTON MINISTER

Calls On Investment Company Officers and Others to Restore Money Obtained in These Concerns.

LEXINGTON, KY., April 6.—The Rev. I. J. Spencer, of the Central Christian Church, preached to-night on investment companies. One of the most noticeable features of these concerns is that many of the officers and directors are deacons, elders or Sunday school teachers. One or two are preachers and several are seen in the church choirs on Sunday.

In the course of his remarks, Dr. Spencer directed a number of sentences at the ears of members of his own church. He declared that all the sin was not committed by the officers of the companies, but said it was not right to desire to get rich by taking some one else's money as in instance where \$3 were promised for \$1. He added:

"Now, let me say to any investment company officer if you have been guilty of misappropriation of funds not your own, it is your duty to make full restitution of every dollar of such funds. If you misrepresented and deceived your friends and have reaped the material benefit of that deception and are to-day richer on account of your wrongs to others than you are morally bound to right these wrongs."

Mr. Spencer quoted many passages of Scripture bearing on wrongs wrought by man upon his fellowman and made many interesting comparisons. He said: "If any have embezzled or stolen let them receive justice. If any be innocent without any intentional misrepresentation or deception let them not be reckoned as guilty. To-day in Lexington no sin is more universal or more pronounced than covetousness. The Bible teaches that elders and deacons must not be covetous nor greedy of filthy lucre. This greed unites them for public service in the church."

CAPITAL SECURED.

Morehead and West Liberty Railroad to Be Finished Without Delay—What Work Has Been Done.

The Morehead and West Liberty railroad is to be finished with rapidity. Arrangements have been made whereby the capital required to complete the road is at the command of the promoters.

Four miles of the road have been completed, track laid, and the large tunnel is about half done. On the other side of the tunnel, toward West Liberty, grading has been finished for several miles, and ties strewn along the route. Work will be resumed as soon as the weather will permit, and rapidly pushed to completion.

It is the intention of the operators to extend the road from West Liberty along the Licking river to Cannel City, where connection will be made with the O. and O. railroad. This will give a connection at Jackson with the L. and E. The completion of this road will give an outlet to an abundance of timber and coal.

Dr. W. W. Jones left Monday night on the Virginia for Cincinnati where he will take the train for Texas in which State he intends to locate. Mrs. Sarah Minier, wife of J. L. Miner, died Sunday night at her home near Poplar Flat, after a lingering illness. She had been an invalid for fifteen or twenty years. Her husband survives, with one son. She was a sister of Mr. John McGowan, of Rectorville. Funeral this afternoon at 2 o'clock at Bethany Church, by Elder T. P. Degman.

An item appeared in the BULLETIN of recent date about a suit between Mr. R. A. Carr, of this city, and Mr. H. R. Wood, of Helena, over a horse that was levied on some months ago. The suit was over a gelding instead of a stallion, as first stated, and it is still in litigation. The stallion is still in the possession of Mr. Wood, and will make the season of 1902 in the Helena neighborhood.

John Teeters, of Ellsberry, north of Aberdeen, has been attending the alleged "holiness" meetings conducted in the school house there by Harris and Hurst, and became so violently insane Sunday that friends had to take charge of him. He was stricken dumb on Friday evening and was unable to speak until Sunday evening. Many others have been stricken in like manner during the meetings and remained for hours in a semi-conscious condition.

The Chicago Live Stock World thinks that "cheap corn is not to be expected for a long time to come no matter how bountiful the crop of 1902 may be. The granaries of the world are empty and old corn in the feeding districts will be a scarce article next winter. At the same time the country is full of cattle and the demand for pork sufficient to justify raisers in raising more hogs than ever. Several bountiful crops of corn will be needed to glut the market with that cereal."

A READY RETORT

By Groom Won a Home for Himself and Young Bride—Were Married Here.

[Enquirer.]

Roy Bogen, the twenty-year-old and somewhat precocious son of County Infirmary Superintendent Bogen, won a home for himself and his newly made bride by a ready retort. It will be remembered by readers of the Enquirer that young Bogen recently eloped to Maysville with pretty Miss Herron, of Winston Place. On his return to this city he repaid to the County Infirmary to receive his father's blessing, and incidentally to remain there for a time—at least until he could furnish a home for himself. Ed. Bogen, the father, was somewhat put out at his son's elopement, and refused at first to allow him and his bride to remain with him at the institution. After considerable argument the boy clinched matters by saying:

"Well, father, if you don't let me stay here now it's an even-money bet that you'll have to take me in within a few weeks."

REV. P. M. JONES, Pastor.

The Green River Tobacco Company now has seventy-seven hands employed.

A bookseller in Cleveland advertised for a porter. A big, muscular Irishman walked into the shop and glanced around; finally his eye rested on a big sign over a table with books: "Dickens' works all this week for \$4." The Irishman eyed it thoughtfully, then edged toward the front door. The floor-walker asked pleasantly if there was something he wanted; and the applicant remarked with a backward glance toward the sign: "Oh come in t' git th' job, but Oh'll not care fr' it. Dickens kin wurrack all th' week fr' four dollars if he wants to. Oh'll not." And the visitor strode vigorously out.

The English "Society for the Prevention of Consumption" presided over by the Prince of Wales, was recently addressed by Sir William Broadbent, who stated that it was definitely known that every case of consumption began with a germ communicated from some other case. There is no such thing as inherited consumption. There may be local weakness which tends to consumption, but the germ has absolutely to be planted in that weak spot before consumption can ensue. This ought to comfort thousands of people who have "weak chests" or "weak lungs." They are not foreordained victims of this dread disease. All that is needed to bid absolute defiance to this deadly scourge is to be able to strengthen the weak lungs, and build up a strong body. The answer to this need is found in Dr. Pierce's Golden Medical Discovery. It so purifies the blood and increases the blood supply, that disease is thrown off, and the weak organs are nourished into perfect health, which defies germs of every kind. People, given up by doctors, emaciated, bleeding in the lungs, with obstinate, lingering coughs, are being cured every day by the use of "Golden Medical Discovery." It is a strictly temperance medicine containing no alcohol, whisky or other intoxicant.

constantly wet until the pain ceases, using a bandage of old muslin for wrapping. If the pain is very intense, laudanum may be added. After the pain has ceased and only discoloration and swelling remain to tell the tale it is a good plan to apply a stimulating liniment. This induces an extra flow of fresh blood to the spot. In the case of a severe bruise the supply of blood to the injured part must be lessened by elevating it above the heart and applying cold water or even ice.

Of course when the bruise, or contusion rather, is of such moment house remedies should be indulged in only while waiting for a doctor, a truth that necessarily applies to all the various emergencies that arise. In cases of severe burns physicians are often hampered by home remedies that cover the burns and hide the real extent of the injury.
